

Hudson Highlands Fjord Trail

With the currently proposed route, the only portion of the trail that would be located within the Village municipal boundary is in Dockside Park, which is state land. Improvements on state land are not subject to local zoning approvals.

The routes people might reasonably take to reach the trail might also be improved, i.e., sidewalk improvements or additions. Wayfinding would also be planned and, where it is within non-state or non-MTA-owned lands, would go before the village Historic District Review Board for approval of design.
