Dutchess Manor

Cold Spring

The Visitor Center at Dutchess Manor will **strategically draw hikers away from Cold Spring** by serving as the Fjord Trail's central trail entrance. It will welcome and orient visitors and offer parking, amenities, and programs.

Hudson Highlands Fjord Trail

The Visitor Center at Dutchess Manor will be an essential tool for visitation management . . .

Less than a mile up the trail from the Breakneck Metro-North station, the Visitor Center will offer amenities like **restrooms, food, water, sunscreen and maps.**

Educational programs, exhibits, and other services will attract visitors and help relieve the burden of tourism currently shouldered by the Village of Cold Spring.

Staff will mitigate crowding during peak periods by offering **recommendations to visitors based on real-time visitation at various locations.**

The Fjord Trail's **largest parking lot, featuring 180 new spaces and a shuttle stop,** will decrease vehicular traffic in the Village of Cold Spring.

Want to learn more about how the Visitor Center at Dutchess Manor will strategically manage visitation to the region?
