

Hudson Highlands Fjord Trail

The 7.5-mile route will have six main trail entries between Beacon and Cold Spring. Visitors will choose the entry point that suits their purpose. For those that need to park a car, Dockside would be the least attractive entry point. The Dutchess Manor Visitor Center will serve as the trail's central hub and will offer the largest parking area and most amenities.

Please [refer to this map](#) for locations of planned entry points and parking areas.
