

Chris Davis is the chair of the Hudson Highlands Fjord Trail Board of Directors. His is one of many voices - the public, the Steering Committee, the Design Council, regulatory authorities, land owners, design team, the Fjord Trail Board, expert visitation management consultants, staff, and more - that continue to shape this project. Chris Davis's biggest design impact on the project is his request to all involved with the Master Plan update to ensure the project is quiet, thoughtful, and respectful to the beautiful landscape.

As all nonprofits, we post our audited financial statements, Form 990, and Annual Report to share financial information. As a matter of policy, we do not disclose the contribution amounts of our individual donors.
