

Hudson Highlands Fjord Trail, Inc. is an independent subsidiary nonprofit of Scenic Hudson. Its mission is to create and steward the 7.5-mile trail to solve existing safety concerns around visitation, provide welcoming access to people of all ages and abilities, restore and protect natural resources, and enhance quality of life for local communities. We're striving to ensure that everyone has access to the inspirational landscapes of the Hudson Highlands in a manner that protects the environment, culture, and character of the region. Construction of the entire trail, including any shoreline sections, will be consistent with that vision, and the trail's six planned entry points are designed to manage visitation by diffusing users along the full route—avoiding concentration in any one area. We believe that in implementing HHFT's mission, with extensive community input, we will be supporting the mission of Scenic Hudson to sustain and enhance the Hudson Valley's inspirational beauty and health for generations to come.
