

We are so excited about the programming possibilities HHFT can offer our local community. When the first section of the Fjord Trail is operational (currently projected for 2026), HHFT will open our Visitor Center at Dutchess Manor. This visitor hub will give us a home base for interpretive and educational programming, as well as collaborations with other community-led nonprofits and local schools and youth groups. We look forward to input from residents on how they might like to use the Visitor Center and the trail too. Please shoot us an email at info@hhft.org.
