

Hudson Highlands Fjord Trail

Accessing the Fjord Trail by train will certainly be encouraged and promoted. Our visitation management consultants will help us determine the best ways to do this. There will also be the option for those who live within walking or biking distance of a HHFT shuttle stop to use the shuttle to move through the trail area rather than use their cars. For those who must use a car to access the Fjord Trail and the parkland it connects to, there will be multiple options for parking along the trail, north of Cold Spring Village. HHFT will enforce parking rules within its own sphere of operation, but along Route 9D and within the jurisdictions of various law enforcement entities, parking violation consequences will be up to village police, county sheriffs, and state law enforcement, respectively.
